**A fleet-wide network should come  
out of fleet-wide experience.**

**CANES.** The U.S. Navy's Consolidated Afloat Network and Enterprise Services (CANES) program demands an in-depth understanding of the entire fleet. The kind that only the Northrop Grumman CANES team can provide. Our experience spans the full network life cycle and across all domains, from IT and C4ISR to fleet operations. We build the fleet, and only those who know the fleet can meet its needs. Northrop Grumman. Ready to deliver the most seaworthy solution.
