▼ **CANES**

The U.S. Navy's Consolidated Afloat Networks and Enterprise Services program uses expert integration to move critical data seamlessly over a common network system. The result? A stronger, more agile fleet. As a committed CANES partner, Northrop Grumman offers a low risk, modular solution that minimizes ownership cost. Our in-depth knowledge of platform design, integration, systems engineering, shipbuilding, security and logistics makes Northrop Grumman the right choice to deliver the most fleet smart solution.
