

Wade F. Brylow

Director
Corporate Internal Audit
Northrop Grumman Information Systems

Wade Brylow is director of corporate internal audit for Northrop Grumman's Information Systems (IS) sector. He reports directly to Northrop Grumman's vice president of corporate internal audit and reports on a dotted-line basis to Linda Mills, corporate vice president and president, Northrop Grumman Information Systems. He also serves as a member of the IS sector's leadership staff.

In this position, Mr. Brylow is responsible for administering the corporate audit function on behalf of the sector and directs an audit program that ensures independent and objective evaluation of control systems and operational effectiveness. As a corporate-managed function, Northrop Grumman's Internal Audit department is broadly empowered to assess and assist the sectors in developing and improving processes that lead to operational and financial success.

With more than 20 years at Northrop Grumman, including 15 years experience working as an auditor for corporate internal audit, Mr. Brylow has a wealth of knowledge and experience regarding the company's culture and processes. Prior to assuming his current position, Mr. Brylow was the director of corporate internal audit for Northrop Grumman's Information Technology sector, a position he held after serving as director of corporate internal audit for the Space Technology sector. He also served as the audit manager for Air Combat Systems at the company's Integrated Systems sector.

Wade has a bachelor's degree in political science from Marquette University and a master's degree in business administration from Pepperdine University.
