**THE VALUE OF
A CANES SOLUTION
THAT'S AS SECURE
AS IT IS OPEN.**

There are many reasons Northrop Grumman's CANES solution is the right choice for the U.S. Navy. It uses our MOSA-C™ process to enable continuous open systems competition throughout the life cycle. It's integrated with a resilient cybersecurity system.

It employs proven installation techniques to help the Navy deploy CANES and future upgrades faster. It's easy to operate, easy to maintain, and it easily integrates warfighter C4I capabilities. It's an affordable, secure, enduring design only Northrop Grumman can deliver.

THE VALUE OF PERFORMANCE.

NORTHROP GRUMMAN
